points in the copper group. Highest quotations were made early in the day, price fluctuations being of little interest the remainder of the session. The close was strong and near the top.

Renewed offerings of Chicago, Rock Island and Pacific stock continued and resulted in a new low price of 1327-8, a decline of 13-8 points. General opinion is that in the end the property will not be reorganized by the stockholders, but be reorganized by the stockholders, but be bondholders. The debentures continued to depreciate, small offerings reducing the price 11-2 points to the new low of 21-2, followed by a one-point recovery. Although persons affiliated with the property cannot say whether the interest on the debentures due July Is will be paid or not, the tape indicates who are quite bullish, although they admit that the July and Seytember wheat are at comparation of the support when the July and Seytember wheat are at comparation to the July and Seytember wheat are at comparation. There are two of Chicago is argest grain bouser who are quite bullish, although they admit that the July and Seytember wheat are at comparation.

NEW YORK MONEY.

New York, May 77. Cotton exhibited a generally steady tone rods), recovering an early less and closing at a net advance of 3 to 8 points. Shorts furnished the greater part of the demand, with offerings limited to local profit taking. Whelan interests also need moderate busees. Trade was not large and there appeared to be a general dispersion of the company of the control of the not large and there appeared to be a general dis-position to even its accounts over the weak end. Public attention was entirely diverted from the market because of the political situation. The English market closed at a net decline of 24 to 5's points. These will be no session of the Liverpool exchange tomorrow and Saturday. The spot article here advanced five points to \$50. Prices no stable control reside are bottles well.
